

**YOUR
MARKET LEADER FOR
AGV SERVICES**

The ProLog Automation logo is centered within a dark green diamond-shaped graphic. It consists of the same stylized diamond icon as the header logo, followed by the text "ProLog" in a large, bold, sans-serif font and "Automation" in a smaller, regular font below it.

**Contact us
if you want to
automate your
intralogistics.**

AGV OPERATORS

SERVICES CONSULTING PACKAGE

We help operators of automated guided vehicles with their AGV project according to their wishes:

AGV Basischeck

Your ideas and plans for an AGV system are verified by our experts. If required, the basic check includes a feasibility study or further concept development.

AGV specifications

We check or create your specification sheet with technical and commercial correctness.

AGV Bid Review/ Technical Evaluation

We check the technical correctness of the AGV offers so that nothing goes wrong with the purchase.

AGV Mentoring 365

You will learn how to manage your AGV project and speak at eye level with suppliers.

Simulation

Your existing AGV system or your new concept with a comprehensible analysis for optimised implementation.

Start-up support / Plant operation

You benefit from our function as an intersection between operator and plant manufacturer.

Project management

Your system will be planned and realised by our experienced AGV project managers.
